SUBJECT: State of Michigan Counter-Drug Procurement Program (1122)

The State of Michigan is implementing the Michigan Counter-Drug Procurement Program, also referred to as the 1122 Program. State and local law enforcement agencies whose missions are to enforce drug laws are provided access to this program. Eligible agencies may purchase equipment and supplies at federal cost under the 1122 Program.

The Governor has designated the Department of Management and Budget, Acquisition Services, as the State Point of Contact (SPOC) for the 1122 Program. The SPOC facilitates the purchase of the equipment and supplies for eligible agencies.

To be considered eligible, interested agencies must complete and return the enclosed “Application for Participation” and the “Law Enforcement Agency Data Sheet”. Once received, the SPOC will determine agency eligibility for access to equipment and supplies under the program. The SPOC will notify the requesting agency in writing when the request is approved. This notification will include the “Procurement Request Forms” (and instructions?) to be used when ordering equipment and supplies.

Review the enclosed information prior to submitting the Application for Participation. Please use the following contact information if you need further information:
